The Company's equity in the net income and losses of these investments is reported in equity income in earnings of unconsolidated affiliates in the accompanying Condensed Consolidated Statements of Income.

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X and include all of the information and disclosures required by generally accepted accounting principles in the United States ("GAAP") for interim financial reporting. These unaudited Condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements of the Company and related footnotes for the year ended December 31, 2023, included in the 2023 Annual Report filed with the Securities and Exchange Commission on February 16, 2024.

The results of operations for the interim periods are not necessarily indicative of results of operations for a full year. It is the opinion of management that all necessary adjustments for a fair presentation of the results of operations for the interim periods have been made and are of a recurring nature unless otherwise disclosed herein.

(b) *Inventories.* Inventories are stated at the lower of cost or net realizable value, determined by the first-in, first-out method, and consist of the following:

<i>(in millions)</i>	<b>March 31, 2024</b>	<b>December 31, 2023</b>
Finished goods	\$ 350.7	\$ 335.4
Work-in-process	14.8	16.5
Raw materials and supplies	124.1	131.2
	<u>\$ 489.6</u>	<u>\$ 483.1</u>

(c) *Warranties.* The Company provides warranties on certain products, which vary by segment, product and brand. Estimates of warranty expenses are based primarily on historical claims experience and product testing. Estimated future obligations related to these products are charged to cost of sales in the period in which the related revenue is recognized. The Company considers the impact of recoverable salvage value on warranty costs in determining its estimate of future warranty obligations.

The Company provides warranties on mattresses with varying warranty terms. Tempur-Pedic mattresses sold in the North America segment and all Sealy mattresses have warranty terms ranging from 10 to 25 years, generally non-prorated for the first 10 to 15 years and then prorated for the balance of the warranty term. Tempur-Pedic mattresses sold in the International segment have warranty terms ranging from 5 to 15 years, non-prorated for the first 5 years and then prorated on a straight-line basis for the last 10 years of the warranty term. Tempur-Pedic pillows have a warranty term of 3 years, non-prorated.

**TEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (unaudited) (continued)**

The Company had the following activity for its accrued warranty expense from December 31, 2023 to March 31, 2024:

*(in millions)*

Balance as of December 31, 2023	\$	40.8
Amounts accrued		3.9
Warranties charged to accrual		(3.1)
Balance as of March 31, 2024	\$	<u>41.6</u>

As of March 31, 2024 and December 31, 2023, \$19.4 million and \$18.9 million of accrued warranty expense is included as a component of accrued expenses and other current liabilities and \$22.2 million and \$21.9 million of accrued warranty expense is included in other non-current liabilities on the Company's accompanying Condensed Consolidated Balance Sheets, respectively.

(d) *Allowance for Credit Losses.* The allowance for credit losses is the Company's best estimate of the amount of expected lifetime credit losses in the Company's accounts receivable. The Company regularly reviews the adequacy of its allowance for credit losses. The Company estimates losses over the contractual life using assumptions to capture the risk of loss, even if remote, based principally on how long a receivable has been outstanding. As of March 31, 2024, the Company's accounts receivable were substantially current. Account balances are charged off against the allowance for credit losses after all reasonable means of collection have been exhausted and the potential for recovery is considered remote. Other factors considered include historical write-off experience, current economic conditions and also factors such as customer credit, past transaction history with the customer and changes in customer payment terms. The allowance for credit losses is included in accounts receivable, net in the accompanying Condensed Consolidated Balance Sheets.

The Company had the following activity for its allowance for credit losses from December 31, 2023 to March 31, 2024:

*(in millions)*

Balance as of December 31, 2023	\$	66.9
Amounts accrued		3.8
Write-offs charged against the allowance		(1.8)
Balance as of March 31, 2024	\$	<u>68.9</u>

(e) *Fair Value.* Financial instruments, although not recorded at fair value on a recurring basis, include cash and cash equivalents, accounts receivable, accounts payable and the Company's debt obligations. The carrying value of cash and cash equivalents, accounts receivable and accounts payable approximate fair value because of the short-term maturity of those instruments. Borrowings under the 2023 Credit Agreement (as defined in Note 4, "Debt") and the securitized debt are at variable interest rates and accordingly their carrying amounts approximate fair value. The fair value of the following material financial instruments were based on Level 2 inputs, which include observable inputs estimated using discounted cash flows and market-based expectations for interest rates, credit risk and the contractual terms of debt instruments. The fair values of these material financial instruments are as follows:

*(in millions)*

	Fair Value	
	March 31, 2024	December 31, 2023
2029 Senior Notes	\$ 726.3	\$ 724.2

**TEMPUR SEALY INTERNATIONAL, INC. AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (unaudited) (continued)**

**2023 Credit Agreement**

On October 10, 2023, the Company entered into the 2023 Credit Agreement with a syndicate of banks. The 2023 Credit Agreement provides for a \$1.15 billion revolving credit facility, a \$500.0 million term loan facility, and an incremental facility in an aggregate amount of up to the greater of \$850.0 million and additional amounts subject to the conditions set forth in the 2023 Credit Agreement, plus the amount of certain prepayments, plus an additional unlimited amount subject to compliance with a maximum consolidated secured leverage ratio test. The 2023 Credit Agreement has a \$60.0 million sub-facility for the issuance of letters of credit.

On February 6, 2024, the Company and certain other parties thereto entered into an amendment to the 2023 Credit Agreement which provides for a \$625.0 million delayed draw term loan and a \$40.0 million increase in availability on the existing revolving loan. Once drawn, the instruments will have the same terms and conditions as the Company's existing term loans and revolving loans, respectively, under the 2023 Credit Agreement. This amendment was executed in connection with the Company's financing strategy for the pending acquisition of Mattress Firm expected to close in the second half of 2024.

The Company had \$177.0 million in outstanding borrowings under the revolving credit facility as of March 31, 2024. Total availability under the revolving facility was \$1,012.4 million, after a \$0.6 million reduction for outstanding letters of credit, as of March 31, 2024.

**Securitized Debt**

The Company and certain of its subsidiaries are party to a securitization transaction with respect to certain accounts receivable due to the Company and certain of its subsidiaries (as amended, the "Accounts Receivable Securitization"). As of March 31, 2024, the Company did not have availability under the Accounts Receivable Securitization. While subject to a \$200.0 million overall limit, the availability of revolving loans varies over the course of the year based on the seasonality of the Company's accounts receivable.

**(5) Stockholders' Equity**

(a) *Treasury Stock.* As of March 31, 2024, the Company had approximately \$774.5 million remaining under its share repurchase authorization. The Company did not repurchase shares under the program during the three months ended March 31, 2024. The Company repurchased 0.1 million shares under the program for approximately \$5.0 million during the three months ended March 31, 2023.

In addition, the Company acquired shares upon the vesting of certain restricted stock units ("RSUs") and performance restricted stock units ("PRSUs"), which were withheld to satisfy tax withholding obligations during each of the three months ended March 31, 2024 and 2023, respectively. The shares withheld were valued at the closing price of the stock on the New York Stock Exchange on the vesting date or first business day prior to vesting, resulting in \$43.8 million and \$30.7 million in treasury stock acquired during the three months ended March 31, 2024 and 2023, respectively.

(b) *Accumulated Other Comprehensive Loss ("AOCL").* AOCL consisted of the following:

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (unaudited) (continued)**

**(7) Stock-Based Compensation**

The Company's stock-based compensation expense for the three months ended March 31, 2024 and 2023 included PRSUs, non-qualified stock options and RSUs. A summary of the Company's stock-based compensation expense is presented in the following table:

<i>(in millions)</i>	<b>Three Months Ended March 31,</b>	
	<b>2024</b>	<b>2023</b>
PRSU expense	\$ 4.1	\$ 5.1
Option expense	0.6	0.6
RSU expense	4.5	5.1
Total stock-based compensation expense	<u>\$ 9.2</u>	<u>\$ 10.8</u>

The Company grants PRSUs to executive officers and certain members of management. Actual payout under the PRSUs is dependent upon the achievement of certain financial goals. During the first quarter of 2024, the Company granted PRSUs as a component of the long-term incentive plan ("2024 PRSUs"). The Company has recorded stock-based compensation expense related to the 2024 PRSUs during the three months ended March 31, 2024, as it was probable that the Company would achieve the specified performance targets for the performance period.

**(8) Commitments and Contingencies**

The Company is involved in various legal and administrative proceedings incidental to the operations of its business. The Company believes that the outcome of all such pending proceedings in the aggregate will not have a material adverse effect on its business, financial condition, liquidity or operating results.

**(9) Income Taxes**

The Company's effective tax rates for the three months ended March 31, 2024 and 2023 were 21.2% and 22.2%, respectively. The Company's effective tax rates for the three months ended March 31, 2024 and 2023 differed from the U.S. federal statutory rate of 21.0% principally due to subpart F income (i.e., global intangible low-taxed income, or "GILTI," earned by the Company's foreign subsidiaries), foreign income tax rate differentials, state and local taxes, changes in the Company's uncertain tax positions, the excess tax benefit related to stock-based compensation and certain other permanent items.

The OECD (Organization for Economic Co-operation and Development) has proposed a global minimum effective tax of 15% on income arising in each jurisdiction ("Pillar 2") that has been agreed upon in principle by over 140 countries. During 2023, many countries took steps to incorporate Pillar 2 model rule concepts into their domestic laws. Although the model rules provide a framework for applying the minimum tax, countries may enact Pillar 2 slightly differently than the model rules and on different timelines and may adjust domestic tax incentives in response to Pillar 2. Accordingly, we still are evaluating the potential consequences of Pillar 2 on our longer-term financial position. In 2024, we do not expect Pillar 2 to have a material impact on our financial results.

**(10) Earnings Per Common Share**

The following table sets forth the components of the numerator and denominator for the computation of basic and diluted earnings per share for net income attributable to Tempur Sealy International:

<i>(in millions, except per common share amounts)</i>	<b>Three Months Ended</b>	
	<b>March 31,</b>	
	<b>2024</b>	<b>2023</b>
<b>Numerator:</b>

<b>Basic earnings per common share</b>	<u>\$ 0.44</u>	<u>\$ 0.50</u>
<b>Diluted earnings per common share</b>	<u>\$ 0.43</u>	<u>\$ 0.48</u>

The Company excludes shares issuable upon exercise of outstanding stock options from the diluted earnings per common share computation because their exercise price was greater than the average market price of Tempur Sealy International's common stock or they were otherwise anti-dilutive.

As a result, the Company excluded an immaterial amount of shares for the three months ended March 31, 2024 and excluded 0.6 million shares for the three months ended March 31, 2023. Holders of non-vested stock-based compensation awards do not have voting rights but do participate in dividend equivalents distributed upon the award vesting.

The North America segment consists of manufacturing and distribution subsidiaries and licensees located in the U.S., Canada and Mexico. ## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

*The following discussion and analysis should be read in conjunction with the 2023 Annual Report, including "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in ITEM 7 of Part II of the 2023 Annual Report, and the accompanying Condensed Consolidated Financial Statements and notes thereto included in this Report. Unless otherwise noted, all of the financial information in this Report is consolidated financial information for the Company. The forward-looking statements in this discussion regarding the mattress and pillow industries, our expectations regarding our future performance, liquidity and capital resources and other non-historical statements in this discussion are subject to numerous risks and uncertainties. See "Special Note Regarding Forward-Looking Statements" elsewhere in this Report and in the 2023 Annual Report, the section titled "Risk Factors" contained in ITEM 1A of Part I of the 2023 Annual Report. Our actual results may differ materially from those contained in any forward-looking statements.*

In this discussion and analysis, we discuss and explain the consolidated financial condition and results of operations for the three months ended March 31, 2024, including the following topics:

- an overview of our business and strategy;
- results of operations, including our net sales and costs in the periods presented as well as changes between periods;

- our use of certain non-GAAP financial measures.

### Business Overview

#### General

We are committed to improving the sleep of more people, every night, all around the world. As a leading designer, manufacturer, distributor and retailer of bedding products, we know how crucial a good night of sleep is to overall health and wellness. Utilizing over a century of knowledge and industry-leading innovation, we deliver award-winning products that provide breakthrough sleep solutions to consumers in over 100 countries.

We operate in two segments: North America and International. These segments are strategic business units that are managed separately based on geography. Our North America segment consists of manufacturing and distribution subsidiaries and licensees located in the U.S., Canada and Mexico. Our International segment consists of manufacturing and distribution subsidiaries, joint ventures and licensees located in Europe, Asia-Pacific and Latin America (other than Mexico). Corporate operating expenses are not included in either of the segments and are presented separately as a reconciling item to consolidated results. We evaluate segment performance based on net sales, gross profit and operating income. For additional information refer to Note 11, "Business Segment Information," included in Part I, ITEM 1 of this Report.

Our highly recognized brands include Tempur-Pedic®, Sealy® and Stearns & Foster® and our non-branded offerings consist of value-focused private label and OEM products. Our products allow for complementary merchandising strategies and are sold through third-party retailers, our more than 750 company-owned and joint venture operated retail stores worldwide and our e-commerce channel.

Our distribution model operates through an omni-channel strategy. We distribute through two channels in each operating business segment: Wholesale and Direct. Our Wholesale channel consists of third-party retailers, including third-party distribution, hospitality and healthcare. Our Direct channel includes company-owned stores, online and call centers.

#### General Business and Economic Conditions

We believe the bedding industry is structured for sustained growth over the long term, driven by product innovation, sleep technology advancements, consumer confidence, housing formations and population growth. The industry is no longer engaged in uneconomical retail store expansion, startups have shifted from uneconomical strategies to becoming profitable and legacy retailers and manufacturers have become skilled in producing profitable online sales.

Over the last decade, consumers have made the connection between a good night's sleep and overall health and wellness. As consumers make this connection, they are willing to invest more in their bedding purchases, which positions us well for long-term growth.

In 2024, we expect a continuation of the current macroeconomic environment, which includes the impact of inflation and interest rate pressures on the consumer. These macroeconomic pressures on the consumer continue to challenge the global bedding industry. Ongoing geopolitical conflicts may also introduce further uncertainty for the consumer. We expect to outperform the bedding industry, amid these macroeconomic headwinds, as a result of our successful new product launches and recent distribution gains in the U.S.

#### *Definitive Agreement with Mattress Firm.*

On May 9, 2023, Tempur Sealy International and Mattress Firm entered into a definitive agreement and plan of merger (the "Merger Agreement") for a pending business acquisition in which Tempur Sealy International, through a wholly-owned subsidiary, will acquire Mattress Firm in a transaction valued at approximately \$4.0 billion. The transaction is expected to be funded by approximately \$2.7 billion of cash consideration and the issuance of 34.2 million shares of common stock, resulting in a total stock consideration value of \$1.3 billion based on a closing share price of \$37.62 as of May 8, 2023.

We expect the transaction to close in the second half of 2024, subject to the satisfaction of customary closing conditions, including applicable regulatory approvals. Following the close of the transaction, Mattress Firm is expected to operate as a separate business unit.

#### *Product Launches*

In 2024, we are launching a new portfolio of Tempur-Pedic® Adapt mattresses in our North America segment. This next-generation technology sets the standard for support, pressure relief, and motion cancellation with Tempur material precisely responding to your body's weight, shape, and temperature in a way no other mattress does. This collection was designed to complement the Tempur-Pedic® Breeze collection and Tempur-Ergo® Smart Bases launched in 2023 and finishes the complete reset of our core Tempur lineup.

In our International segment in 2024, we plan to complete the rollout of the new line of Tempur® products in over 90 markets through our wholly-owned subsidiaries and third-party distributors. This new line of products will broaden Tempur®'s price range, with the super-premium price point ceiling maintained and the floor expanded into the premium category to broaden our global addressable market.

For a discussion and reconciliation of non-GAAP financial measures as discussed above to the corresponding GAAP financial results, refer to the non-GAAP financial information set forth below under the heading "Non-GAAP Financial Information."

We may refer to net sales, earnings or other historical financial information on a "constant currency basis," which is a non-GAAP financial measure. These references to constant currency basis do not include operational impacts that could result from fluctuations in foreign currency rates. To provide information on a constant currency basis, the applicable financial results are adjusted based on a simple mathematical model that translates current period results in local currency using the comparable prior corresponding period's currency conversion rate. This approach is used for countries where the functional currency is the local country currency. This information is provided so that certain financial results can be viewed without the impact of fluctuations in foreign currency rates, thereby facilitating period-to-period comparisons of business performance. Constant currency information is not recognized under GAAP, and it is not intended as an alternative to GAAP measures. Refer to Part I, ITEM 3 of this Report for a discussion of our foreign currency exchange rate risk.

Consolidated gross margin	\$ 512.6	43.1 %	\$ 499.9	41.4 %	1.7 %	

Costs associated with net sales are recorded in cost of sales and include the costs of producing, shipping, warehousing, receiving and inspecting goods during the period, as well as depreciation and amortization of long-lived assets used in the manufacturing process.

Our gross margin is primarily impacted by the relative amount of net sales contributed by our premium or value products. Our value products have a significantly lower gross margin than our premium products. If sales of our value priced products increase relative to sales of our premium priced products, our gross margins will be negatively impacted in both our North America and International segments.

Our gross margin is also impacted by fixed cost leverage based on manufacturing unit volumes; the cost of raw materials; operational efficiencies due to the utilization in our manufacturing facilities; product, brand, channel and country mix; foreign exchange fluctuations; volume incentives offered to certain retail accounts; participation in our retail cooperative advertising programs; and costs associated with new product introductions. Future changes in raw material prices could have a significant impact on our gross margin. Our margins are also impacted by the growth in our Wholesale channel as sales in our Wholesale channel are at wholesale prices, whereas sales in our Direct channel are at retail prices.

Gross margin improved 170 basis points. The primary drivers of changes in gross margin by segment are discussed below:

- *North America* gross margin improved 180 basis points. The improvement in gross margin was primarily driven by favorable commodity costs of 200 basis points and operational efficiencies of 70 basis points. These improvements were partially offset by production line changeover to support new OEM distribution and product launch costs.
- *International* gross margin improved 140 basis points. The improvement in gross margin was primarily driven by favorable commodity costs of 70 basis points and operational efficiencies of 60 basis points.

## OPERATING EXPENSES

Selling and marketing expenses include advertising and media production associated with the promotion of our brands, other marketing materials such as catalogs, brochures, videos, product samples, direct customer mailings and point of purchase materials and sales force compensation. We also include in selling and marketing expense certain new product development costs, including market research and new product testing.

General, administrative and other expenses include salaries and related expenses, IT, professional fees, depreciation and amortization of long-lived assets not used in the manufacturing process, expenses for administrative functions and research and development costs.

### Cash Provided by (Used in) Operations

The table below presents net cash provided by (used in) operating, investing and financing activities from operations for the periods indicated below:

(in millions)	Three Months Ended March 31,	
	2024	2023
Net cash provided by (used in) operations:		
Operating activities	\$ 130.2	\$ 99.8
Investing activities	(31.2)	(52.0)
Financing activities	(77.9)	(28.4)

Cash provided by operating activities increased \$30.4 million in the three months ended March 31, 2024 as compared to the same period in 2023. The increase in cash provided by operating activities was driven by a \$30.3 million increase in cash provided by changes in operating assets and liabilities.

Cash used in investing activities decreased \$20.8 million in the three months ended March 31, 2024 as compared to the same period in 2023. The decrease in cash used in investing activities was driven by decreased capital expenditures related to our manufacturing capacity expansion projects in 2023.

Cash used in financing activities increased \$49.5 million in the three months ended March 31, 2024 as compared to the same period in 2023. For the three months ended March 31, 2024, we had net repayments of \$3.7 million on our credit facilities as compared to net borrowings of \$32.4 million in the same period in 2023. During the three months ended March 31, 2024 and 2023, we repurchased \$43.8 million and \$35.7 million, respectively, of our common stock. Additionally, we paid dividends to shareholders of \$24.9 million and \$20.8 million, during the three months ended March 31, 2024 and 2023, respectively.

### Capital Expenditures

Capital expenditures totaled \$31.5 million and \$52.1 million for the three months ended March 31, 2024 and 2023, respectively. We currently expect our 2024 capital expenditures to be approximately \$150 million, which includes maintenance capital expenditures of \$110 million.

### Indebtedness

Our total debt increased slightly to \$2,594.4 million as of March 31, 2024 from \$2,593.6 million as of December 31, 2023. Total availability under our revolving senior secured credit facility was \$1,012.4 million as of March 31, 2024. Refer to Note 4, "Debt" in the "Notes to Condensed Consolidated Financial Statements," under Part I, ITEM 1 for further discussion of our debt.

On February 6, 2024, we entered into an amendment to the 2023 Credit Agreement which provides for a \$625.0 million delayed draw term loan and a \$40.0 million increase in availability on the existing revolving loan. Once drawn, the instruments will have the same terms and conditions as the Company's existing term loans and revolving loans, respectively, under the 2023 Credit Agreement. This amendment was executed in connection with the Company's financing strategy for the pending acquisition of Mattress Firm expected to close in the second half of 2024.

As of March 31, 2024, our ratio of consolidated indebtedness less netted cash to adjusted earnings before interest, taxes, depreciation and amortization ("EBITDA"), which is a non-GAAP financial measure, in accordance with our 2023 Credit Agreement was 2.85 times. This ratio is within the terms of the financial covenants for the maximum consolidated total net leverage ratio as set forth in the 2023 Credit Agreement, which limits this ratio to 5.00 times. As of March 31, 2024, we were in compliance with all of the financial covenants in our debt agreements, and we do not anticipate material issues under any debt agreements based on current facts and circumstances.

Our debt agreements contain certain covenants that limit restricted payments, including share repurchases and dividends. The 2023 Credit Agreement, 2029 Senior Notes and 2031 Senior Notes contain similar limitations which, subject to certain conditions, allow unlimited restricted payments at times when the ratio of consolidated indebtedness less netted cash to adjusted EBITDA, which is a non-GAAP financial measure, remains below 3.75 times in the case of the 2023 Credit Agreement and remains below 3.50 times in the cases of the 2029 Senior Notes and 2031 Senior Notes. In addition, these agreements permit limited restricted payments under certain conditions when the ratio of consolidated indebtedness less netted cash to adjusted EBITDA is above 3.75 times in the case of the 2023 Credit Agreement and above 3.50 times in the cases of the 2029 Senior Notes and 2031 Senior Notes. The limit on restricted payments under the 2023 Credit Agreement, 2029 Senior Notes and 2031 Senior Notes is in part determined by a basket that grows at 50% of adjusted net income each quarter, reduced by restricted payments that are not otherwise permitted.

For additional information, refer to "Non-GAAP Financial Information" below for the calculation of the ratio of consolidated indebtedness less netted cash to adjusted EBITDA calculated in accordance with the 2023 Credit Agreement. Both consolidated indebtedness and adjusted EBITDA as used in discussion of the 2023 Credit Agreement are non-GAAP financial measures and do not purport to be alternatives to net income as a measure of operating performance or total debt.

### Share Repurchase Program

Our Board of Directors authorized a share repurchase program in 2016 pursuant to which we were authorized to repurchase shares of our common stock, and the Board of Directors has authorized increases to this authorization from time to time. During the three months ended March 31, 2024, we did not repurchase shares under our share repurchase program. As of March 31, 2024, we had \$774.5 million remaining under our share repurchase authorization.

Share repurchases under this program may be made through open market transactions, negotiated purchases or otherwise, at times and in such amounts as management deems appropriate. These repurchases may be funded by operating cash flows and/or borrowings under our debt arrangements. The timing and actual number of shares repurchased will depend on a variety of factors including price, financing and regulatory requirements and other market conditions. The program is subject to certain limitations under our debt agreements. The program does not require the purchase of any minimum number of shares and may be suspended, modified or discontinued at any time without prior notice. Repurchases may be made under a Rule 10b5-1 plan, which would permit shares to be repurchased when we might otherwise be precluded from doing so under federal securities laws.

We will manage our share repurchase program based on current and expected cash flows, share price and alternative investment opportunities. As a result of the pending Mattress Firm acquisition, we have temporarily suspended our repurchase of shares in advance of closing the transaction. For a complete description of our share repurchase program, please refer to ITEM 5 under Part II, "Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities," in the 2023 Annual Report. Please also refer to "Issuer Purchases of Equity Securities" in ITEM 2(c) of Part II of this Report.

#### *Future Liquidity Sources and Uses*

As of March 31, 2024, we had \$1,104.9 million of liquidity, including \$92.5 million of cash on hand and \$1,012.4 million available under our 2023 Credit Agreement. In addition, we expect to generate cash flow from operations in the full year 2024. We believe that cash flow from operations, availability under our existing credit facilities and arrangements, current cash balances and the ability to obtain other financing, if necessary, will provide adequate cash funds for our foreseeable working capital needs, necessary capital expenditures, debt service obligations and dividend payments.

Our capital allocation strategy follows a balanced approach focused on supporting the business, returning shareholder value through strategic acquisition opportunities that enhance our global competitiveness, as well as quarterly dividends and opportunistic share repurchases.

The Board of Directors declared a dividend of \$0.13 per share for the second quarter of 2024. The dividend is payable on May 30, 2024 to shareholders of record as of May 16, 2024.

As of March 31, 2024, we had \$2,594.4 million in total debt outstanding and consolidated indebtedness less netted cash, which is a non-GAAP financial measure, of \$2,501.9 million. Leverage based on the ratio of consolidated indebtedness less netted cash to adjusted EBITDA, which is a non-GAAP financial measure, was 2.85 times for the trailing twelve months ended March 31, 2024.

Our debt service obligations could, under certain circumstances, have material consequences to our stockholders. Similarly, our cash requirements are subject to change as business conditions warrant and opportunities arise. The timing and size of any new business ventures or acquisitions that we may complete may also impact our cash requirements and debt service obligations.

#### **Non-GAAP Financial Information**

We provide information regarding adjusted net income, EBITDA, adjusted EBITDA, adjusted EPS, adjusted gross profit, adjusted gross margin, adjusted operating income (expense), adjusted operating margin, consolidated indebtedness and consolidated indebtedness less netted cash, which are not recognized terms under GAAP and do not purport to be alternatives to net income, earnings per share, gross profit, gross margin, operating income (expense) and operating margin as a measure of operating performance, or an alternative to total debt as a measure of liquidity. We believe these non-GAAP financial measures provide investors with performance measures that better reflect our underlying operations and trends, providing a perspective not immediately apparent from net income, gross profit, gross margin, operating income (expense) and operating margin. The adjustments we make to derive the non-GAAP financial measures include adjustments to exclude items that may cause short-term fluctuations in the nearest GAAP financial measure, but which we do not consider to be the fundamental attributes or primary drivers of our business.

We believe that exclusion of these items assists in providing a more complete understanding of our underlying results from operations and trends, and we use these measures along with the corresponding GAAP financial measures to manage our business, to evaluate our consolidated and business segment performance compared to prior periods and the marketplace, to establish operational goals and to provide continuity to investors for comparability purposes. Limitations associated with the use of these non-GAAP measures include that these measures do not present all of the amounts associated with our results as determined in accordance with GAAP. These non-GAAP financial measures should be considered supplemental in nature and should not be construed as more significant than comparable financial measures defined by GAAP. Because not all companies use identical calculations, these presentations may not be comparable to other similarly titled measures of other companies. For more information about these non-GAAP financial measures and a reconciliation to the nearest GAAP financial measure, please refer to the reconciliations on the following pages.

*Adjusted Net Income and Adjusted EPS*

**EBITDA, Adjusted EBITDA and Consolidated Indebtedness less Netted Cash**

The following reconciliations are provided below:

- Net income to EBITDA and adjusted EBITDA
- Ratio of consolidated indebtedness less netted cash to adjusted EBITDA
- Total debt, net to consolidated indebtedness less netted cash

We believe that presenting these non-GAAP measures provides investors with useful information with respect to our operating performance, cash flow generation and comparisons from period to period, as well as general information about our leverage.

The 2023 Credit Agreement provides the definition of adjusted EBITDA. Accordingly, we present adjusted EBITDA to provide information regarding our compliance with requirements under the 2023 Credit Agreement.

The following table sets forth the reconciliation of our reported total debt to the calculation of consolidated indebtedness less netted cash as of March 31, 2024. "Consolidated Indebtedness" and "Netted Cash" are terms used in the 2023 Credit Agreement for purposes of certain financial covenants.

For purposes of determining total debt for financial covenant purposes, we have added these costs back to total debt, net as calculated per the Condensed Consolidated Balance Sheets.
- (2) Netted cash includes cash and cash equivalents for domestic and foreign subsidiaries designated as restricted subsidiaries in the 2023 Credit Agreement.
